

OMKAR JAGTAP

SOFTWARE DEVELOPER

PROFILE

As an enthusiastic web developer, I'm driven by a deep passion for my craft, committed to refining my skills to provide significant value to any organization. With expertise in Java, Advanced Java complemented by Data Structures & Algorithms (DSA), I am poised to leverage my skills and enthusiasm to make meaningful contributions to organization while continuously honing my abilities.

INTERNSHIPS

Web Development

Elite Softwares

Feb 2023 - Mar 2023

- Developed proficiency in HTML, CSS, and JavaScript while actively contributing to various web development projects.
- Acquired comprehensive knowledge of software development methodologies, including version control, testing, and debugging techniques.
- Demonstrated understanding of web hosting practices, encompassing deployment procedures and server administration.
- Implemented robust client-side validation mechanisms to ensure data integrity and enhance user experience.
- Designed responsive web interfaces to optimize accessibility and functionality across diverse devices and screen resolutions.
- Spearheaded the development of a front-end solution for a pizza store website, integrating advanced features such as client-side validations and responsive design to elevate user engagement and satisfaction.

PROJECTS

Job Portal

Skills :- Core Java, Advanced Java, Html, CSS, Javascript, Bootstrap, SQL

- Led the end-to-end development of a robust job portal website incorporating client, database, and server-side validations to ensure data integrity and security.
- Implemented a comprehensive set of features including organization and candidate panels, facilitating seamless interaction between employers and job seekers.
- Enabled users to apply for jobs, manage job postings, and utilize a resume builder tool to enhance application submissions.
- Integrated secure authentication mechanisms to safeguard user credentials and permissions for accessing site functionalities.

Movie Review Website

Skills :- ReactJS, FireBase, FireStoreDB, Tailwind CSS

- Spearheaded the creation of a dynamic movie review website using React, Firestore, and Firebase technologies.
- Implemented real-time rating and commenting functionalities to foster user engagement and interactivity with movie content.
- Leveraged Firestore database for efficient storage and retrieval of movie data, reviews, ratings, and user-generated content.
- Integrated Firebase authentication to ensure secure user authentication and authorization for accessing and interacting with site features.

Flipkart Clone

Skills :- HTML, CSS, JavaScript, BootStrap.

- Designed and implemented user interfaces that closely resemble the layout and functionalities of the Flipkart platform.

Pizza Store

Skills :- HTML, CSS, JavaScript, BootStrap.

- Led the frontend development of a grocery store website during an internship, focusing on implementing client-side validations and ensuring responsiveness across various devices.
- Incorporated client-side validations to enhance data integrity and user experience, validating user inputs for accuracy and completeness during the shopping process.
