INTERNSHIP

Elite Softwares (Web Development)

Feb 2023 – Mar 2023

- Mastered HTML, CSS, JavaScript, Bootstrap, Version Control, and responsive design while spearheading the creation of a responsive Bakery Store with integrated client-side validations.
- Demonstrated strong problem-solving skills, attention to detail, and the ability to write clean, maintainable code ensuring efficient and systematic solutions.
- Actively contributed as a team player, showcasing excellent communication skills and a willingness to learn.

SELECTED PROJECTS

FABRICO [Link](#)

Nov 2024 – Nov 2024

Skills: - Spring Boot, Spring Security, Spring Data JPA, React.JS, Tailwind CSS, MUI.

- Built a full-stack e-commerce application with a payment gateway, role-based authentication, login attempt limits, and email verification using Spring Security.
- Integrated customer features such as cart, wishlist, order tracking, order cancellations, product reviews, coupons, and more.
- Developed an admin panel for inventory and product management with analytics-driven dashboards.
- Implemented sorting, filtering, pagination, profile management, and advanced functionalities for both the customer and admin.

CAREER CATALYST [Link](#)

Oct 2023 – Dec 2023

Skills: - Core Java, Advanced Java, Html, CSS, JavaScript, Bootstrap, SQL

- Developed an end-to-end secure job portal website with client, database, and server-side validations.
- Implemented organization panel and candidate panel for seamless employer job-seeker interaction.
- Integrated functionalities like job management, profile management, job search, and many more.
- Enabled login, log out functionality and other functionalities for enhanced user experience.

HOMEHARBOR [Link](#)

Aug 2024 – Sept 2024

Skills: - React.JS, Node.JS, Express.JS, MongoDB, Prisma, JWT, Socket.io, Leaflet

- Developed a hostel booking website enabling students to book PG rooms or apartments.
- Implemented real-time chat using Socket.io for direct communication between students and property owners.
- Integrated user authentication with React and JWT for secure access.
- Created buyer and renter profiles for seamless user interaction and utilized Leaflet for interactive property location navigation.

FLEXI WEB [Link](#)

June 2024 – July 2024

Skills: - Node.JS, Express.JS, MongoDB, Handlebars, Bootstrap

- Developed a versatile website that empowers small businesses to manage and update their content like sliders, banners, service cards, and gallery through an admin panel reducing reliance on freelancers.
- The website template, initially designed for a bakery, can be easily adapted for various businesses such as cafes, general stores, service companies, medical, etc.
