SUMMARY

As a versatile Full-Stack Developer, I bring a strong expertise in Java, J2EE, and the MERN stack encompassing front-end and back-end technologies and SQL, NoSQL & Cloud databases. My proficiency in the above technologies allows me to deliver efficient and systematic solutions. Known for my reliability, quick learning, and adaptability, I consistently meet deadlines and manage tasks effectively. Driven by a passion for technology, I thrive in high-pressure environments and enjoy solving complex challenges.
